PROJECTS

Aurum Perfume — Full Stack E-Commerce Platform

[Live Demo](#) | [GitHub](#)

React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Engineered a production-ready MERN stack e-commerce platform with end-to-end functionality covering product discovery, cart management, and order processing.
- Architected dual role-based dashboards for customers and administrators, enabling streamlined catalog management and order workflows.
- Secured the application with JWT-based authentication and protected API routes, enforcing granular access control across all user roles.
- Developed 10+ RESTful API endpoints and implemented complete CRUD operations for product management, ensuring reliable frontend-backend communication.
- Designed a normalized MongoDB schema via Mongoose ODM and engineered a fully responsive, mobile-first UI using React.js and Tailwind CSS.
- Deployed to Vercel with CI/CD pipeline configuration, achieving zero-downtime releases and optimized build performance.

INTERNSHIP EXPERIENCE

PHP Developer Intern

Solapur, Maharashtra, India

Code World Pvt. Ltd.

60 Hours

- Developed dynamic, data-driven web pages with PHP and MySQL, automating backend workflows and reducing manual data-handling overhead.
- Implemented full CRUD operations backed by normalized MySQL schemas, improving data integrity and query performance.
- Collaborated with the backend team on sprint deliverables, contributing to on-time feature completion throughout the project lifecycle.
- Identified and resolved defects across PHP backend and HTML/CSS/JavaScript frontend layers, measurably improving application stability.
